The Honorable Nancy Pelosi Speaker U.S. House of Representatives Washington, DC 20515 The Honorable Kevin McCarthy Republican Leader U.S. House of Representatives Washington, DC 20515

Dear Speaker Pelosi and Leader McCarthy,

We are writing in support of H.R. 1644, the Save the Internet Act, to fully restore the strong net neutrality protections for Internet users that were adopted through the FCC's 2015 Open Internet Order but later repealed.

Net neutrality is fundamental to guaranteeing that every American has unencumbered access to the Internet. This access is also essential to a competitive, free market for the technology economy to thrive as well as entrepreneurship in this country. The benefits of these protections are not confined to technology companies and startups. Main Street businesses across numerous sectors increasingly rely on unfettered Internet access to run their operations and to reach customers.

Net neutrality has been critical to the Internet's explosive growth, creating an open platform on which companies large and small can grow. We urge members of Congress to stand on the side of consumers and Internet users to quickly pass a clean, unamended version of H.R. 1644. This bill would restore strong rules prohibiting blocking, throttling, and paid-prioritization while reinstating ex-ante enforcement and oversight by the FCC to prevent net neutrality-related harms from happening in the first place.

Passing H.R. 1664 will provide certainty for businesses and startups and would ensure critical consumer protections for all Internet users.

Sincerely,

1Huddle
